SUMMARY

Skilled Media Producer and 3D Printing Specialist with over 15 years of self-employed experience in producing websites, music videos, and other media. Demonstrated success in running a profitable 3D printing business with a turnover of £100,000. Possesses a strong educational background with a 2.1 in Media Production and a Distinction in Advanced Computer Graphics and Animation. Recognized for initiative, self-sucieny, and adaptability across diverse projects. Proven track record in client retention and satisfaction, with multiple collaborations with the same musicians and writers. Expertise in promotional photography, motion capture, advanced shader creation in Maya, and comprehensive 3D printing processes. Notable projects include award-winning animations and music videos with significant viewership.

SKILLS

- Media Production
- Adobe Suite Proficiency
- Animation & Graphics Technical
- Proficiency 3D Printing
- 3D Scanning
- Emerging Technologies
- Project Management
- Safety Standards
- Photography
- Videography
- Website Development
- Photoshop
- Illustrator
- After Effects
- Advanced Shader Creation
- Motion Capture (Maya)
- 3D Animation
- 3D Art
- 3D Renderings
- HTML/CSS
- JavaScript
- Midjourney
- Learning JavaScript for building modules for Foundry VTT
- File Optimization
- Machine Operation
- Maintenance
- Micron-scale 3D Printing
- 3D Printing Processes
- Printing Project Monitoring
- 3D Scanner Operating
- Experience with LLMs like ChatGPT for creating virtual communities and roleplaying interaction
- Harnessing the ChatGPT API
- Client Relations
- Budgeting
- Deadline Adherence
- CPC Protocols
- Equipment Maintenance
